COMPANY PROFILE

ATAMAP > SPECIAL SERVICES

Personal Security Details (PSD)/Close protection

Our international PSD/Close Protection services include both low risk and high risk protection teams for all situations. Our personal security detail team is the first line in a proactive defence to ensure that a threat never reach you.

Static security

We take care of the protection of your assets, the securing of your buildings, harbours, oil derricks, pipelines and construction sites world wide.

Maritime Security

Our PMSC teams are highly professional, selected from former Scandinavian and UK military special forces and marine/amphibious forces. We work exclusively according to the IMO guide lines.

Security consultants

Our consultants/advisors are highly professional, selected from special forces and law enforcement from SCANDINAVIA, UK, FRANCE, CANADA & USA. Our consultants will help you implement the necessary security framework, including management and operational areas.

This product and client portfolio will assist you in choosing the most suitable products for your applications.

Vision

Our vision is to be the national leader in providing quality solutions that provides a secured and safe environment that enables our customers achieve their strategic goals. We envision ourselves as a household name that provides bespoke world class services to reduce to the barest minimum security risks for the public and private sector.

Mission Statement

Our mission is to help organization in the public and private sector reduces to the barest minimum risks to their assets - facilities, people and information. We intend to achieve this by providing world class equipment and training to our clients to ensure that their assets are protected with a view to assisting clients in achieving their organizational goals.

Company Overview

At ATAMAP ASSOCIATES, we are ideally positioned to source and deliver a wide range of goods and services to satisfy your discerning and exacting requirements. With clients ranging from within the government sector to blue chip organizations and the SME marketplace, we are committed to delivering efficient solutions for varying needs. We offer a broad variety of solutions through our wealth of expertise in the following areas:

1. Arms & Ammunition
2. Security Equipment;
3. Protection Services;
4. Safety Products;
5. Brokerage Services;
6. Counter Terrorism;
7. Emergency and disaster Management;
8. Energy;
9. Oil & Gas;
10. Security Consultancy.
11. Training;
12. Auctioneer;

Corporate Values

Our corporate values include:

Customer Focus – we adopt a customer-centric relationship approach with our clients such that we are able to develop trust which continues to aid our business partnership for the mutual benefits of our organization.

Expertise – we have committed to providing insightful solutions which has only been achievable considering the various expertise of our team members. Our works have demonstrated our expertise to our clients and we continue to train our team to use innovative and out-of-the-box approach in creating and delivering the right solution.

Performance – we challenge ourselves to improve performance year-on-year and to create long-term sustainability. We constantly seek to improve our performances and optimise our processes.

Best People – we always take care to employ the best people, develop their competence, provide opportunities and inspire them to live our values. We do not just employ the best, as a leader in our field, we raise leaders and we are proud of our people.

Integrity – we can always be trusted to do the right thing. We do not sacrifice ethics for profit. We believe that in the long run, integrity is more profitable than cutting corners.

Dear Sir/Ma,

Letter of Introduction: ATAMAP Associates Int'l Ltd. (RC: 449776)

We would like to introduce ATAMAP Associates International Limited, one of the largest security solution providers in Africa. ATAMAP was established in 2002, in Nigeria with Corporate Affairs Commission (RC: 449776), and have expanded over the years, with a network of offices in four continents. We bring technologies from around the globe to end users through our established distributor network and business partnership with world major manufacturers of security equipment, protection and safety products in **USA, SOUTH KOREA, FRANCE, SPAIN, GERMANY, SWEDEN, CANADA, INDIA and BULGARIA.**

ATAMAP ASSOCIATES INT'L LIMITED, apart sourcing products with local content, have acquired EXCLUSIVE distributorship right covering Nigeria and sub-Sahara Africa for HIGH grade security equipment, arms & ammunitions, protection and safety products from world renowned leading manufacturers in Europe, America and Asia Countries. Our staffs are well trained locally while some have undergone training with our manufacturers in Canada, America, Prague Czech, France and Sweden. We operate with the best standard and practice. Apart from installation of security equipment, we also provide after-sales care for every product sourced from us. Our team of customer care executives are also always ready to ensure that you have an enjoyable and satisfactory business experience with us.

Apart from the sales, installation and servicing of security equipment, we also provide security services and consultancy. Our team of expert trainers and certified consultants have developed tailored training packages that helps both corporate and government organizations ensure that its assets are protected from different security threats that may affect profitability and the image of the organization.

Below is a list of some of the services we provide:

System Component (sales, installation, and maintenance)

The system components for 'Protection Plan' comprised of the following major components.

1. K-rated vehicle barriers control system (e.g. bollard and planters).
2. Vehicle Scanning and Personal Scanning.
3. CCTV Systems (including IP Cameras with app for mobile phone viewing)
4. Dedicated Wireless Communication system for Security Staff on duty,
5. Access Control Systems (Biometric Authentication and Turnstile amongst others).
6. Special Detection Systems for Explosive and IED.
7. Jamming Systems for IED.
8. Mail Container and the Suspect Hand Baggage Containment System
9. Executive Vest (Bulletproof Vest)
10. Non-lethal weapons
- 11. Supply of Arms & Ammunitions**

Security Training and Consultancy

1. Guards training;
2. Employment Background check;
3. Physical security survey of facilities;
4. Vulnerability assessment;
5. Internal theft prevention and investigation;
6. Security Awareness Training;
7. Hostile Environment Awareness Training (HEAT);
8. Training on tactical driving (offensive and defensive);
9. Fraud investigation; and
10. Drafting and review of company security policies;

Currently, we have the privilege of providing our security services to several prestigious organizations, which include Governments (Federal, States, and Local). We are keen to be associated with your esteemed organization and are confident that we can provide you with the highest level of services that meet all your requirements for security systems and services.

We would very much appreciate if you could spend some of your valuable time to study our enclosed profile and pre-qualify us as one of the approved suppliers of products and services in your projects.

Please feel free to contact us for any Security System Design, Specification requirements, security training and consultancy needs.

While assuring you of our best attention at all times, we remain committed to ensuring that we exceed your expectations whenever you do business with us.

Yours sincerely,

Moroof Kunle Abeshinbioke

Solutions

Security Equipment, counter-surveillance and Protection products

- ✓ Body Armour;
- ✓ Anti-Mine Equipment;
- ✓ Trace Explosives Detector;
- ✓ Bulk Explosive Detector;
- ✓ G-Tracer: Long Range Detector (Distance 300m Radius);
- ✓ EOD/IEDD Portable & Mega Jammer;
- ✓ Walk through Scanning Systems;
- ✓ EDD/Detection Equipment;
- ✓ Baggage Screening Systems;
- ✓ Walkie Talkie & Long Range Radio;
- ✓ Anti-Mine & Demining Armor;
- ✓ Handcuffs & Leg cuffs;
- ✓ Security Blinds;
- ✓ Blast Resistant Wall;
- ✓ Remote Controlled Spotlight;
- ✓ Searchlight (Beam Distance up to 1625m);
- ✓ Armored Cars and Custom bulletproof Vehicles;
- ✓ Protection Equipment;
- ✓ Safety Products;
- ✓ RF Detector;
- ✓ EMF Detector;
- ✓ Thermal Imaging Systems;
- ✓ Spy Finders;
- ✓ Drone Jammers;
- ✓ Non-Linear Junction Detector;
- ✓ Emergency Masks;
- ✓ Hand held Metal Detectors;
- ✓ Under Vehicle Inspection Systems;
- ✓ Access Control Systems;
- ✓ Mail Screening Systems;
- ✓ Electro-Hydraulic Rising Bollard;
- ✓ Intruder Alarms;
- ✓ Gate Barriers;
- ✓ Public Address System;
- ✓ Non-lethal weapons such as stun guns and pepper spray;
- ✓ Ballistic Blanket; and
- ✓ Close Circuit Television (CCTV) Installations and maintenance

Security Training and Counter Terrorism Solutions

- ✓ Executive Drivers tactical training program;
- ✓ Guards Training
- ✓ Terrorist Incident Response Course;
- ✓ Hostile Environment Awareness Training (HEAT)
- ✓ Workplace violence prevention training
- ✓ Active shooter management training
- ✓ Terrorist threat assessment
- ✓ Emergency response training

Protection Services

- ✓ Technical Sweeping Services (Technical Surveillance Countermeasures (TSCM))
- ✓ Armored Cars and Custom bulletproof Vehicles for distinguished individuals.
- ✓ Provision of equipment for tactical units in an effort to protect law enforcement and military personnel from violent attacks during close combat situations. As a solution to the active-shooter dilemma, our tactical response vehicles are designed for breaching and can handle sustained high-power rifle fire.
- ✓ Close Body protection for VIPs.
- ✓ Conference Security protection services.

ATAMAP RANGE OF PRODUCTS

VEHICLE SCANNER – UVSS

The Under Vehicle Surveillance System mainly used for checking whole structure under cars, Can quickly and accurately identify the hiding contraband in the vehicle and illegal immigration, smuggling people, faster and more accurate than traditional vehicle inspection mirror, greatly improving the speed and accuracy of vehicle safety checks,

Fixed Mode:

Deployable Mode:

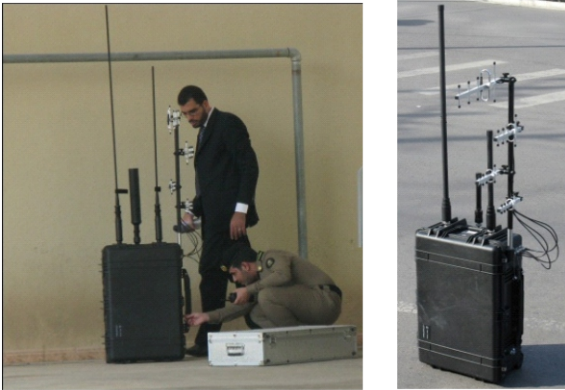

T-BAR TROLLEY TYPE UNDER-VEHICLE SEARCH MIRROR

The T-Bar Trolley Search Mirror is a robust 'wheeled trolley' under vehicle illuminated search mirror, specifically designed and developed with security personnel in mind for detailed searching of the underside of vehicles.

EOD/IEDD MEGA JAMMER

The GSS-EOD/IEDD MEGA JAMMER is one of the best countermeasure jammers available on the market today. The barrage jamming is produced by a fast randomly CW (Continuous Wave) proprietary ladder waveform that slews or "sweeps" the frequency of the jammer from its lowest to its highest frequency limits. Superimposed along the rising ramp portion of the waveform are many

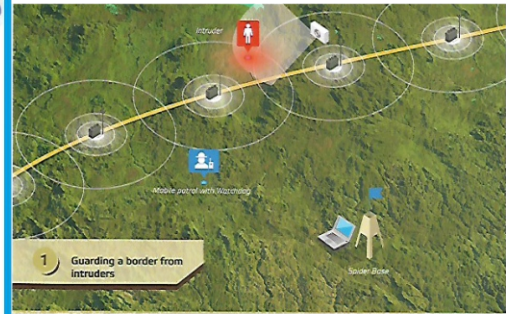

BOMB CONTAINER

SPIDER WATCH

Guarding a border from Intruders

PROTECTIVE MASK M2F

HIGH POWER BACKPACK BOMB JAMMER

This High Power Backpack easily transportable Bomb Jammer uses the latest advanced Direct Digital Synthesizer technology that can quickly & efficiently block signals coming even from the most sophisticated RCEDD - Remote Controlled Digital or Analog Explosive Detonating Devices. Custom frequencies can be easily preprogrammed by using our proprietary software via regular Laptop or PC.

EXPLOSIVE AGENTS DETECTOR/SNIFFER

Advanced Portable System for detection of explosives and radioactivity

MINI-EXPLONIX

EXPLONIX

LONG RANGE EXPLOSIVE DETECTOR (300m) G-TRACER LOCATOR

SAS CEK-R Video Inspection Kit

We offer Training with our Manufacturers in USA, CANADA & EUROPE

ATAMAP RANGE OF PRODUCTS

ELECTRO-HYDRAULIC RISING BOLLARD-

INTRODUCTION

The bollard employs an effective electro-hydraulic mechanism ensuring smooth and efficient movement of the bollard. There is the additional benefit of our manual override facility, ensuring the bollard remains operational in the event of an emergency or power failure. The electronic control unit allows the systems to be operated in either automatic or semi-automatic mode, they can easily be integrated with access control and safety equipment, traffic lights, photocells and ground loops. There is an additional optional feature which allows the bollard to be automatically lowered in the event of a power failure.

MANUAL BARRIER CONTROL

AUTOMATIC BARRIER CONTROL

(SPECIFICATION)

- Heavy duty pillar block bearings
- Removable fibreglass hood
- (Non rusting)
- Safety door switch
- (isolates power for protection)
- 3 Phase motor, single phase supply
- (guaranteed reliability)
- Door mounted control panel
- (for ease of access and adjustment)
- Inverter driven
- (smooth operation)
- Adjustable speed, acceleration and deceleration
- No springs required
- (no balancing or adjustment necessary)
- Motor & gearbox direct drive
- (no pulleys or belts required)
- Pre-wired loop detector bases for single Channel safety and entry/exit control
- Heavy duty roller plunger limit switches
- Programmable logic control
- (clw fault diagnostic on screen display)
- Manual override
- (in case of power failure)
- Comes complete with M12 anchor shield bolts
- (no cabinet mounting plate required)
- 1.5 Amp power supply
- (for additional access control)
- Added Benefits:
- Corporate colours available on request
- Low maintenance
- Ease of installation

CCT CAMERAS

SECURITY SCREENING SYSTEMS

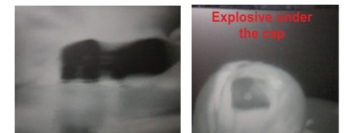

HAND-HELD WHOLE BODY IMAGER (GAME CHANGE)

The 2010 Thermo Conductive Infra-Red state-of-the-art hand held whole body Imager is capable of detecting a wide range of objects such as plastics, ceramics, metals, liquids etc. concealed under the clothing on human body. It is the only Hand Held Whole Body Imager that does not emit any radiation, and does not violate the person's privacy.

This is critical in all types of venues from airports, banks and retail establishments, from commercial high rises to transportation services and detention centers. It can be applied quickly & efficiently where the security is desired and necessary.

APPLICATIONS:

- Airport checkpoints
- Customs, Borders Crossings
- Prisons
- Courtrooms
- Loss Prevention Industry
- Government buildings
- Commercial buildings
- VIP Places

ACCESS CONTROL

WALK THROUGH DETECTOR

UNIQUE MULTI-ZONE TECHNOLOGY

Uses unique coil system that guarantees uniform first-rate detection performance throughout the frame opening. This multi-zone technology provides excellent discrimination and a much lower false alarm rate than with conventional detectors. This result in a much higher throughput rate.

HAND HELD NON LINEAR JUNCTION DETECTOR

This advanced unique non-linear junction detector is significant for its small & compact size, ergonomic design and light weight. The dimensions are as small as 39x10x4 cm; the weight is less than 700 g. Because of its advanced antenna design (only 18 mm thick) it can be used for the hard-to-search small and tight places which was never before possible

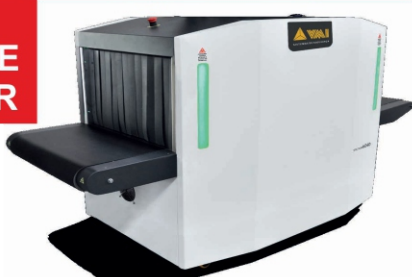

Parcel X-Ray Scanner

A large capacity cabinet postal x-ray scanner for checking bundles of letters, courier deliveries, york trays, parcels and handbags. It is a freestanding unit combining a large screening chamber with a compact physical size. imaging is in black and white and color with several image enhancement options for highlighting low, medium and high density materials. Image enhancements are made using a simple handheld mouse. the images are then stored on screen until the next x-ray exposure is made.

VMI LUGGAGE SCANNER

SPECTRUM (Conventional X-Ray Scanner)

Mailguard

Letterbomb Detector & Mail Scanner

HANDCUFF Metropolitan Police Type

LIMB RESTRAINTS

LAW ENFORCEMENT

INDIVIDUAL USE / DISPENSERS

INDIVIDUAL TEAR GAS SPRAY

USE

Given their specific range of application, these single stream aerosol sprays are intended for use by police and security forces to neutralize isolated individuals by instantaneously incapacitating them. Lift up the safety catch, apply pressure with your thumb on the plunger and a thread-like liquid stream is ejected through the streamlined nozzle.

PERFORMANCE

The thread-like stream of these aerosols easily hits a target at a distance of 4 meters. The precision of the spray combined with the concentrated CS solution rapidly neutralize exposed individuals without causing irreversible effects. Indeed, this solution was chosen for its harmless effect to skin, mucous membranes and especially to eyes.

TRANSPORT

UN : 1950
Hazard class : 2.1
Registration number : 2
Export authorization : licence G2

CHARACTERISTICS

Capacity of active composition	30 cc
Total height	120 mm
Diameter	35 mm
Total weight	52 g
Range	4 m
% of d'OC	5%
Duration of continuous flow	8 sec.
Temperature range	-10/+50°C

Made in FRANCE

BODY GUARD SECRET COMMUNICATION SYSTEM

Do not let the small size of this Radio deceive you, it is definitely the jewel of the two way radios that way outperforms anything else that is available on the market. It is used mainly where long range discrete communication is needed between government security personnel. It comes complete with clear in-ear loop and complete PTT assembly to be used for secret communications.

NIGHT VISION GOGGLE

TOUCH DOWN

MULTI PURPOSE PARTICULATE RESPIRATOR

READI MASK

Readi Mask is a multi-purpose particulate respirator that helps protect against airborne particles including:

- Viruses
- Bacteria
- Smoke Particles
- Radioactive Particle Matter
- Airborne Allergens

READI MASK MULTI-USE

Who Uses Readi Mask

- > First Responders
- > Police
- > Prisons
- > EMS
- > Factory
- > Construction
- > Industrial
- > Schools
- > Bank
- > Employee Kits

Where Readi Mask Is Used

- > Home
- > Office Buildings
- > Hotels - Casinos
- > Airplanes
- > Bank Bulk Room
- > Trains
- > Auto
- > Factories
- > Hospitals
- > Veterinarians

SMOKE HOOD

- Twin cartridges for easy breathing
- Maintenance-free
- High visibility reflective strips for easy recognition
- For easy access - head harness adjusts outside the hood
- Protects lungs, head, eyes, and face
- One universal size
- Quick and easy donning
- Unobstructed field of view
- Can be used with eyeglasses, beards, and long hair

CZ 999

Pistol CZ999 is a modern weapon used as a service gun or a personal defense gun. The pistol is a semi-automatic, functioning on the short recoil of the barrel principle. Locking is achieved by vertical oscillation of the barrel that comes into the hole on the slide. The pistol can function as a single action or double action gun. The pistol is fed from a double-stack detachable magazine. The pistol has ambidextrous controls - it can be operated with right or left hand. Loaded chamber indicator shows whether there is a cartridge in the chamber. Sights are square, with white dots and they facilitate aiming at low visibility conditions. The slide is made of high quality alloy steel. The frame is made of aluminum alloy. Handgrip covers are made of high impact polymer. Standard finish is phosphatizing and painting of aluminum parts, while the steel parts are blued.

Caliber	Capacity (rounds)	Weight (kg)	Barrel length (mm)	Height (mm)	Total length (mm)
9 mm PARA	10 / 15	0.92	108	140	198

EZ 9 / EZ 40

The basic design for pistol EZ9 is Pistol CZ999. Additional characteristics are a mounted rail, enabling the assembly of all optical and electronic devices corresponding to NATO standard and open-type hammer.

Caliber	Capacity (rounds)	Weight (kg)	Barrel length (mm)	Height (mm)	Total length (mm)
9 mm PARA	10 / 15	0.95	108	140	198
.40 S&W	11	0.95	108	140	198

EZ 9 Compact / EZ 40 Compact

Pistol EZ 9 Compact is a version of pistol EZ 9. To achieve better compactness of the weapon, its length was modified and the ballistic performances of basic model are preserved. Pistol EZ 40 Compact is a version of pistol EZ 40. To achieve better compactness of the weapon, its length was modified and the ballistic performances of the basic models are preserved.

Caliber	Capacity (rounds)	Weight (kg)	Barrel length (mm)	Height (mm)	Total length (mm)
9 mm PARA	10 / 15	0.9	98	140	188
.40 S&W	11	0.9	98	140	188

CZ 999 Compact

Pistol CZ999 Compact is a version of pistol CZ999 Scorpion. To achieve better compactness of the weapon, its length was modified and the ballistic performances of basic model are preserved.

Caliber	Capacity (rounds)	Weight (kg)	Barrel length (mm)	Height (mm)	Total length (mm)
9 mm PARA	10 / 15	0.9	98	140	188

Submachine Gun M21, calibre 5.56 x 45 mm

Light-weight and compact

Assault Rifle M21 S, calibre 5.56 x 45 mm

Optionally, at customer's request, the set can include: Underbarrel grenade launcher in caliber 40 mm, Mount with Picatinny rail, in accordance with NATO standard, which enables the assembly of optical-electronic devices, Polymer magazine.

Assault Rifle M21 A, calibre 5.56 x 45 mm

Optionally, at customer's request, the set can include: Underbarrel grenade launcher, cal. 40 mm BGP 40 mm, Mount with Picatinny rail, in accordance with NATO standard, which enables the assembly of optical and electronic devices, Polymer magazine.
